Mirzohid Ibrohimjonov Muzaffar o’g’li

Frontend Developer

Tashkent, Uzbekistan | linkedin.com/in/mirzohid-ibrohimjonov | github.com/Mirzohiddev006 | portfolio-dev-code.vercel.app

SUMMARY

Frontend developer who builds B2B CRM systems, admin panels, Telegram bots and client projects. Strong in React, TypeScript and Feature-Sliced Design, with hands-on fullstack experience (FastAPI, Node.js) and production deployments. Combines engineering skills with a Management degree and active leadership experience.

EXPERIENCE

Fullstack Developer — Mimoram (AI startup) Sep 2026 – Present

- Fullstack developer at an AI startup, joined through the UzCombinator startup ecosystem.

Freelance Developer Jun 2026 – Present

- Delivered CRM systems, admin panels and Telegram bots for multiple clients.
- Built a furniture, mattress and craftsmen marketplace (FastAPI, React, PostGIS), live in production.

Frontend Developer — Cognilabs Inc., Tashkent

- Built **KAS CRM**, a Telegram-integrated AI sales CRM: FSD architecture, dark theme, Recharts dashboards and a chat UI.
- Redesigned the **CIMS** enterprise dashboard: design token system and reusable component library (MetricCard, DataTable, Badge).

SELECTED PROJECTS

- **Bunyodkor CIMS** — football academy management dashboard: React, TypeScript, shadcn/ui, Zustand, TanStack Query; 130+ API endpoints, RBAC, FSD, MSW + Faker.js mock layer (60+ endpoints in the demo build).
- **DevCrm** — education-centre CRM with director/teacher roles, attendance, schedule and finance screens; Uzbek-first UI with RU/EN translations.
- **Currency Tracker** — full-stack Node.js app scraping the Central Bank of Uzbekistan API and major banks; React admin panel, Telegraf bot, PM2/Nginx on AWS EC2.
- **TDIU Admissions Bot** — Telegram bot (Python, aiogram) for prospective students, with RBAC admin panel and 12-section menu.
- **Electronic Voting System** — React/TypeScript frontend with role-based routing, Recharts analytics and PDF export.

SKILLS

Frontend: React, TypeScript, JavaScript, Vite, Tailwind CSS, shadcn/ui, Zustand, TanStack Query, MSW, React Three Fiber, GSAP, Framer Motion
Backend & Bots: Python, FastAPI, aiogram, Node.js, Express, SQLite, PostgreSQL/PostGIS
Architecture & Tools: Feature-Sliced Design, RBAC, REST APIs, Git/GitHub, Vercel, AWS EC2, Nginx, PM2, Claude Code

EDUCATION

Tashkent State University of Economics (TSEU) In progress

B.A. in Management (group MNP-53), third year
